FLORENCE INTERNATIONAL LEGAL SERVICES

# THE FIRM

---

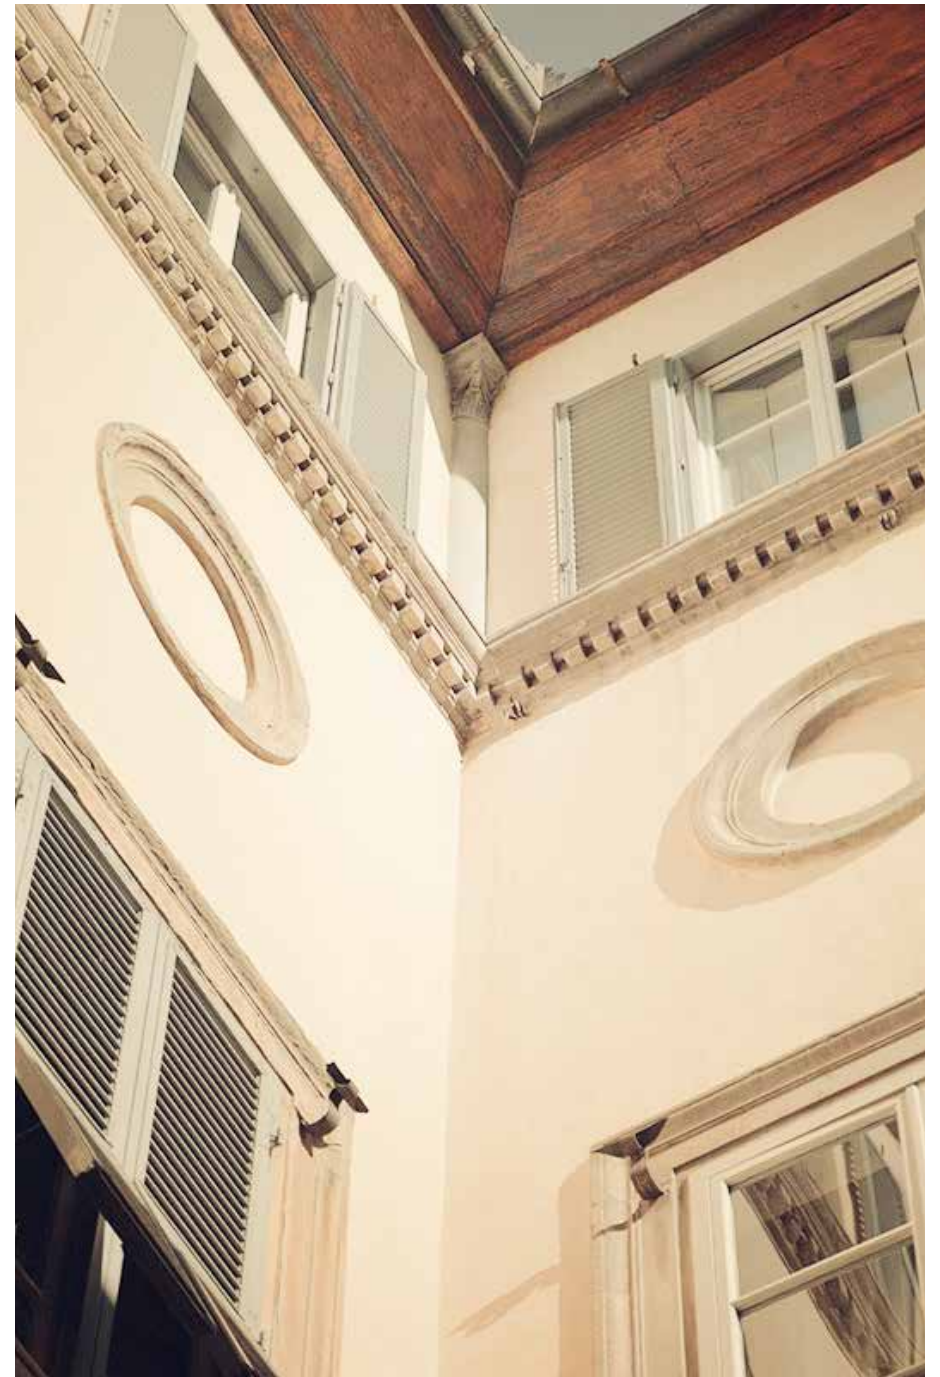

Being smart doesn't entail breaking  
the rules: never ask us to cut corners

A photograph of a classical building's interior courtyard, featuring a large, arched opening and a dark, ornate architectural element. The scene is dimly lit, with light coming from above, creating a dramatic atmosphere. A dark rectangular text box is overlaid on the left side of the image.

## FLORENCE INTERNATIONAL LEGAL SERVICES

Devising the contents of a law firm presentation is not that hard: you just need to list the reasons why you are the best in the world and how ground-breaking the services you offer are.

We prefer to see it in a different way. When you approach a lawyer, you are typically searching for answers to complex issues: our goal is to provide simple and straightforward solutions to such issues. As Einstein famously said, "make everything as simple as possible, but not simpler". Clients have many times told us that in their previous experiences they had entered the premises of – even very well known – law firms with a question mark in mind only to leave them with a headache and even more unanswered question marks: our mantra is to be part of the solution rather than of the problem.

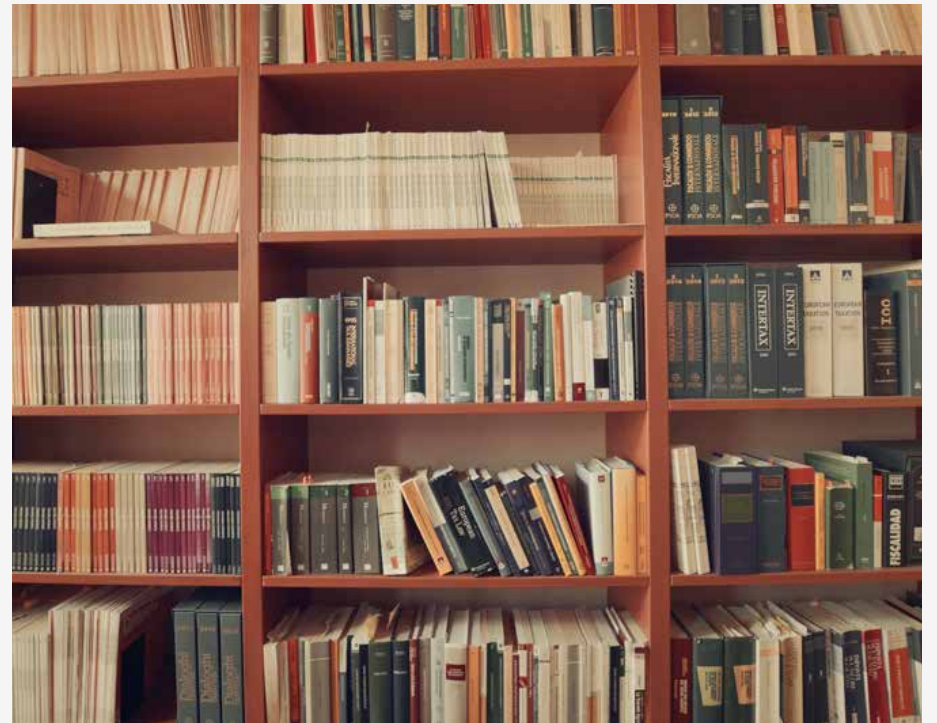

## WHO WE ARE

We could have worked in London, Milan, Rome... but we chose to stay where we are and make the difference.

Our feet are in the glorious heart of Florence whilst our head is in the World. We are an independent Italian law firm specialised in Tax, Corporate and Administrative Law with strong and in-depth skills in cross-border transactions, M&A and real estate.

With a proven track record in handling even the most difficult and challenging cases, clients can benefit from consultancy and guidance based on expertise combined with customized care and advice to the highest standards. This applies to both, judicial and extrajudicial cases.

Marco Bordin

Philip and Marco (the founders of the firm), along with the other partners, Ugo and Leonardo actively participate in advisory bodies such as study groups, are regular speakers at congresses and frequently contribute articles destined for publication in the most prestigious Italian and foreign law journals.

The tax and corporate law members of Laroma Jezzi & Partners have substantial experience in international taxation issues due to their postgraduate study abroad and continuous work in cross border transaction.

The firm has been awarded by the "legal community" as one of the 2016 best tax firms in Italy.

#### OUR VALUES

Our work is complex and demanding so our people need excellent legal and business skills.

Leonardo Amadori

Being smart doesn't entail breaking the rules: never ask us to cut corners.

Our work is complex and demanding so our people need excellent legal and business skills. But technical ability isn't everything. We are in fact constantly working in line with the standards of ethical conduct and therefore are continuously observing the rules and the highest deontological standards. Aware of the responsibility towards society, fairness and transparency are values that all of our partners and associates share and which determine every kind of relationship regardless if with our colleagues or clients.

Our agile and functional organization is able to provide a cost-conscious approach to the problems of management, by building tailored working groups.

## What we do for a living

*Ugo Franceschetti*

In a constantly changing economic and financial environment, legal frameworks equally evolve. As businesses of all sizes progressively explore chances and opportunities to expand beyond their traditional borders, international tax law is becoming one of the fastest growing disciplines within tax law.

Companies and private individuals rely on us for effective and practical judgment in structuring efficient transactions and in arranging business operations to minimize compliance burdens and optimize synergies.

During these years we developed special skills in tax planning, M&A and real estate and due to the several affairs we managed for our clients we adopted a wide spectrum of all the possible aspects related to them.

One of our partners is primarily specialised attorney for public law affairs so we are pleased to assist you with our knowledge of the most advanced administrative issues too.

## Practice Areas

*Agnese Jwad*

### **Tax**

Given the breadth of our international footprint, successfully resolving tax disputes for multinational clients is the focus of our tax controversy practice. Whether a dispute is anticipated, is already at the audit or administrative settlement stage, or has progressed to encompass alternative dispute resolution techniques or litigation, we work closely with our clients to develop the most effective and creative solutions. We also help clients assess their global tax risk and work with them to develop strategies for mitigating that risk.

### **Mergers & Acquisitions**

We advise on corporate reorganisations and restructurings as well as commercial transactions, including domestic and cross-border mergers and acquisitions, demergers, capital raising, joint ventures, tax efficient holding company and financing structures and permanent establishment issues. Our client base includes corporations involved in... (banking and finance, energy, insurance, manufacturing, retail, technology, media, public utility, construction, shipping, aircraft, transport, property and engineering.)

### **Real Estate**

Acting for the real estate industry's leading players, we advise on the full range of real estate-related transactions. We handle the entire property 'life-cycle' from the initial acquisition, development, leasing, joint venturing and financing through to the final exit.

*"We are deliberately small so as to remain focused on our client's needs and provide them with tailored solutions. Whatever we do, we do it with passionately and by taking responsibility for the advice we provide."*
